

Funding Finder

Empowering your zero-emission future

The Funding Finder is a useful tool designed to help tribal communities, local municipalities, businesses, fleet owners, and others identify and secure key funding opportunities to fuel their clean energy and zero-emission vehicle and infrastructure projects.

Funding Finder

fundingfindertool.org

Funding made easy:

1. Select a Funding Category

Vehicles, Infrastructure, Federal and Tribal Communities

2. Filter Funding Results

Simply enter a zip code or state. Funding Finder now provides access to funding opportunities in all 50 states and D.C.

3. Select the Funding That's Right for You

Add additional filters or click Show More to reveal a program's eligibility details, contact information and website with instructions to apply

Innovative New Features:

- The Funding Finder now supports over **360+ funding opportunities**, providing access to more than **\$44.3 billion in potential funds**
- **The Electric Vehicle & Infrastructure Program Exploration Tool (EVIPEET)** provides a birds-eye-view of California utility programs, territories and vehicle- to-grid opportunities
- **New Badges*** provide key program insights at a glance, including equity support, scrappage requirements and stackability with EnergiIZE funds (*currently limited to California)

Funding Opportunities Include:

- Hydrogen
- Battery Electric
- Hybrid
- CNG
- Low Nox
- Transit
- School Bus
- Off-Road
- Truck
- Bus
- And more
