

# Funding Finder

## Empowering your zero-emission future

*The Funding Finder is a useful tool designed to help businesses, fleet owners, local municipalities, tribal communities and others identify and secure key funding opportunities to fuel their clean energy and zero-emission vehicle and infrastructure projects.*

## Funding made easy:

### 1. Select a Funding Category

Vehicles, Infrastructure, Federal and Tribal Communities

### 2. Filter Funding Results

Simply enter a zip code or state. Check back frequently as new states and programs will be added throughout the year

### 3. Select the Funding That's Right for You

Add additional filters or click Show More to reveal a program's eligibility details, contact information and website with instructions to apply

## Innovative New Features:

- The Funding Finder now supports over **60+ funding opportunities**, providing access to more than **\$3.6 billion in potential funds**
- The **Electric Vehicle & Infrastructure Program Exploration Tool (EVIPET)** provides a birds-eye-view of California utility programs, territories and vehicle- to-grid opportunities
- **New Badges\*** provide key program insights at a glance, including equity support, scrappage requirements and stackability with Energize funds (\*currently limited to California)

## Funding Opportunities Include:

- Hydrogen
- Battery Electric
- Hybrid
- CNG
- Low Nox
- Transit
- School Bus
- Off-Road
- Truck
- Bus
- And more

48 South Chester Avenue  
Pasadena, CA 91106
